HOME BUILDING

Has Become the Nation's Main Highway to Recovery!

Government financial aid, coupled with the co-operation of the Home Builder throughout the country, will give business in general — as well as the Building Industry — the greatest stimulus this Nation has ever known.

In presenting this New Catalog, we, offer to all Home Builders a most complete line of Standardized Woodwork for the home . . . and accept in return the responsibility of the Home Builder to supply the many homes throughout the country with products of beauty, quality, and economy.

As a home-owner who seeks the fullest satisfaction, or as a builder who hopes to build, or maintain, a reputation of reliability — you may choose any "Angel" Product in this catalog with implicit expectation of gratifying your desires.

We invite your careful inspection of the following pages illustrating our line of Standardized Woodwork, feeling confident that their many distinctive advantages — both in design and construction — will be readily apparent to you.

FRONT ENTRANCES

A-1

A-2

A-1

Complete Entrance: Includes frame, glazed side light sashes and transom sash. Door priced separately.

Frame: Complete frame includes trim as illustrated. Frame is made from a clear select White Pine with Oak sill and is shipped set-up (transom and side lights in one crate, door in separate crate and trim in one crate). (For 4" stud walls.)

Transom Sash: 14" wide, at its widest point. Made from clear select White Pine, glazed with plain glass. Thickness $1\frac{3}{8}$ ".

Note: Side lights, $1\frac{3}{8}$ " thickness, are glazed with plain glass.

Combination Screen and Storm Door

No. 737

No. 738

No. 739

Specifications

Stiles: $4\frac{3}{4}$ ".

Bottom Rail: $9\frac{1}{4}$ ".

Thickness: $1\frac{1}{8}$ ".

16 Mesh Galvanized or Bronze screen furnished.

Shipping Weight, Glazed: 50 lbs. each.

Note: Each door furnished complete with Sash and Screen panel.

Glazed Sash Nos. 737-738-739 are putty bedded.

Once a door is fitted and hung, it is only necessary to remove the Screen Panel and insert the Sash Panel to make a substantial winter door or vice versa.

A special groove made on the bottom of each Screen and Sash Rail, fits snugly and tightly over the top of the cross rail, insuring a strong and rigid door that will withstand the hard and constant day in and day out usage.

Dowel construction throughout (16 dowels) . . . insuring strength and wear which ordinary doors with mortise and tenon construction do not possess.

Now every home can afford the beauty
and convenience of an attractive
"Angel" Colonial China Closet.

English and Colonial dining-rooms
may be attractively arranged with
Corner Cupboards having either
open or covered shelves. A good
selection of interesting and decora-
tive designs is shown on the follow-
ing pages.

DRAWER CASES

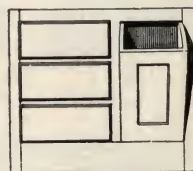

Angel No. 210

Angel No. 220

Angel No. 225

Angel No. 215

1. Four frames built into this case with mortised and tenoned joints makes possible the strongest, most solidly constructed Drawer Case of its kind on the market today.
2. A special gage attached to the top of the back end of each drawer runs along a hardwood drawer guide — preventing sagging when opened.
3. The top of the sides on each drawer are rounded smoothly — resulting in easier sliding drawers.

4. Each drawer has a lip front on all four sides making possible real dustproof drawers.
5. Braces are placed on both sides — resulting in a rigid and unshakable case.
6. All joints are mortised and tenoned, making possible an unusually strong rigid Case eliminating all possibilities of Split Stiles — so often found on the old style tongued and groove jointed form.

"Angel" No. 210 - No. 220 Drawer Cases

No bathroom is complete without a Medicine Cabinet. Considering the small investment, there is no item of built-in woodwork that furnishes greater convenience to the family as a whole.

The "REVERSO" Adjustable Hinging Device which permits the All-Mirror Door to be placed in the most convenient position to best reflect the light will be found on some models — while others are equipped with the Regular Hinging Arrangement which is preferable for many installations.

THE design of the "Angel" Built-In Telephone Cabinets is the result of much experimentation and conforms with the requirements of the telephone companies.

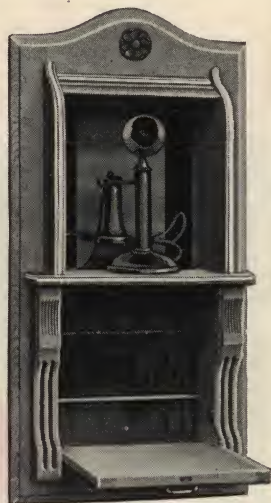

Telephone Cabinets have become popular in recent years. New buildings are few that do not include built-in cabinets. They provide an "out of the way place," and at the same time an attractive receptacle for the telephone instrument and its accessories.
